

Message from the Founder

Given the fact that funding is the lifeblood of the implementation of our programmes, we hereby would like to humbly appeal for your social contribution in the form of **grants support, financial contribution as well as donations** in kinds that will enable us to expand our facilities and effectively run activities associated to our Youth Media centre and community development programmes.

The programmes for which we are requesting your funding will make a difference in the lives of vulnerable women and children who will benefit from that. Through your financial assistance, we believe that this initiative will introduce our centre and services to an extremely underserved and poor black population. As result, we anticipate an increased psychosocial support for Orphans and vulnerable children beneficiaries of our work, an increased educational, nutritional and developmental quality, Poverty and dependence reduction through the creation of income generating activities, capacity building activities and entrepreneurial development activities. We are sure that you will find our profile fits with the mission of your company's interests

Further, we invite you or one of your representatives to visit our organization at your convenience to have a firsthand experience of what we are doing. We will also be happy to submit a full proposal that includes the budget for any program / activity that your company intends to support for your review.

Once again, we appreciate your time vested in reading our profile and letter of intent.

We look forward to many exciting years of prosperous collaboration with you.

Yours sincerely

Eleni Vougiouklis

Managing Director
